

Build Your Own Easter Garden

You will need:

- a cereal box
- aluminium foil
- soil, sand or dirt
- gravel
- grass and flowers from your garden
- rough paper
- a medium-sized spherical stone
- matchsticks, cocktail sticks or twigs
- glue
- scissors
- one small chocolate egg

Firstly, you need to prepare the box your garden is going to be created in. Using the glue, reseal the end flaps of the cereal box. These secured flaps will form one side of your garden, so make sure they are well stuck together! Once they are fixed, lie the box down on either one of its largest sides. Using the scissors, carefully remove the other large side. You should be left with something similar to a tray.

Next, you need to waterproof your box. As there will be soil/sand/dirt in the box when the garden is finished, it is important to protect the cardboard from any water in these materials. Nobody wants a soggy box which they have to throw away after just one day! Line your tray- box with aluminium foil and stick it in place with glue. Make sure there are no tears!

Now your tray-box needs filling. You cannot have a garden without some soil! Fill up the tray-box with the soil/sand/dirt to around 1cm from the top lip. You will need this little space to make sure your plants stay in the right place!

It is not time for your plants just yet, however. First you must build in some reminders of what Easter is all about! Jesus died on a wooden cross, and two criminals died next to him. Take your matchsticks, cocktail sticks or twigs and using the glue, make three crosses

out of them. Make sure they are tall enough to be stuck into the soil/sand/dirt a little way so that they do not fall over.

Next, you should make a tomb. Trying not to be too neat, scrunch up the rough paper into sausage shapes. Using the glue, stick them together side by side and form them into an arch. Use one or two rough paper sausages to seal off one of the openings. You should be left with a rough dome with a hole in one side. You may paint or colour the paper in to make it look more rock-like if you wish.

Now you need to add the 'Easter features' to your garden. When Jesus died on Good Friday, he died on a rocky hill just outside of the city of Jerusalem. To include a reminder of this in your Easter garden, you can pile up the gravel on one side of your tray-box. Place the wooden crosses you made earlier into the gravel so that they stand up well.

Please upload photographs of
your Easter Garden to cheer us
all up!

Easter Joke Multiplication Code Breaker

To find the punch line to the Easter joke, work out the calculation for each question. Next, use the grid to find the letter that corresponds with each answer and write it in the egg. Then crack the code. The first one has been done for you.

Question: Why do you never see dinosaurs at Easter?
