

Scamps Parent Guidance for September

We will need to make some slight changes to the running of our 'Scamps' childcare due to Covid-19. We hope you will understand the need to ensure safety for everyone during this challenging time.

Booking in system

Pupils must be booked into sessions at least by 12 midday the day prior to the day needed, so that we can ensure our staffing ratios are adequate. We will also be organising resources for pupils for each session and we will need to ensure that we have these organised in advance.

Bubbles

As pupils will be in year group bubbles during the day in school, we will be aiming to maintain children in the same year groups in childcare to minimise risks. This will mean that childcare will take place in the school hall and we will organise for pupils to be assigned to tables with others from their year group.

Dropping Off and Picking up

Please ring the bell at the main entrance door for arrival and collection. Please be aware of 2 metre social distancing if there are others in the entrance area or hallway (if the entrance is busy then please wait outside until it is clear). Please sanitise your hands on entry to the building.

Additional Cleaning

We have enhanced cleaning in place to ensure that resources are safe for pupils to use. This is also why we need to know in advance which children are expecting to attend so we can plan for this.

Adults collecting

If an adult other than yourself as a parent will be collecting your child, please remember to let us know in advance. It is also important that they are aware of the 'codeword', printed on your Scamps registration form.

Thank you for your help in ensuring that we can make our childcare as safe and secure as possible. Have a great summer break!

The Scamps Team
