

# Cleves Cross Primary and Nursery School

## PSHE including Relationships, Sex and Health Education Policy

## **Cleves Cross Primary and Nursery School**

### **Relationships and Health Education Policy**

We are a Rights Respecting School and the following articles relate to this policy:

Article 19 - Governments should ensure that children are properly cared for, and protect them from violence, abuse and neglect by their parents, or anyone else who looks after them.

Article 28 – All children and young people have a right to primary education, which should be free.

Discipline in schools should respect children's human dignity. Young people should be encouraged to reach the highest level of education they are capable of.

#### **Statement of intent**

At Cleves Cross Primary and Nursery School, we understand that pupils must be provided with an education that prepares them for the opportunities, responsibilities and experiences of adult life. A key part of this relates to relationships education, which must be delivered to every primary-aged pupil. Primary schools also have the option to decide whether pupils are taught sex education. State-funded primary schools are also required to teach health education.

Relationships education focusses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships, and to build their self-efficacy. Health education focusses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

We understand our responsibility to deliver a high-quality, age-appropriate and evidence-based relationships, sex and health curriculum for all our pupils. This policy sets out the framework for our relationships, sex and health curriculum, providing clarity on how it is informed, organised and delivered.

#### **Legal framework**

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'
- DfE (2021) 'Teaching about relationships, sex and health'

This policy operates in conjunction with the following school policies:

- Child Protection and Safeguarding Policy
- Respectful Relationships (Behaviour) Policy
- SEND Policy

- Inclusion Policy
- Equal Opportunities Policy
- Anti-Bullying Policy
- Online Safety Policy
- Visitor Policy

### **Roles and responsibilities**

The governing body is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes.
- Ensuring the curriculum is well led, effectively managed and well planned.
- Evaluating the quality of provision through regular and effective self-evaluation.
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND.
- Providing clear information for parents on subject content and their rights to request that their children are withdrawn.
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations.

The headteacher is responsible for:

- The overall implementation of this policy.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.
- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the governing body on the effectiveness of this policy.
- Reviewing this policy every 2 years.

The relationships, sex and health education subject lead is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the relationships, sex and health curriculum.
- Ensuring the relationships, sex and health curriculum is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the relationships, sex and health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the headteacher.

### **Organisation of the curriculum**

Every primary school is required to deliver statutory relationships education and health education. The delivery of the relationships education and of health education coincide with one another and will be delivered as part of the school's **PSHE curriculum**.

For the purpose of this policy:

- “Relationships and sex education” is defined as teaching pupils about healthy, respectful relationships, focussing on family and friendships, in all contexts, including online, as well as developing an understanding of human sexuality.
- “Health education” is defined as teaching pupils about physical health and mental wellbeing, focussing on recognising the link between the two and being able to make healthy lifestyle choices.

The relationships and health curriculum has been organised in line with the statutory requirements outlined in the DfE (2019) ‘Relationships, Education, Relationships and Sex Education (RSE) and Health Education’ [guidance](#).

The relationships and health curriculum takes into account the views of teachers, pupils and parents. The school has organised a curriculum that is appropriate for the age and developmental stages of pupils within each year group. When organising the curriculum, the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

We are dedicated to ensuring our curriculum meets the needs of the whole-school community; therefore, the curriculum is informed by issues in the school and wider community to ensure it is tailored to pupils’ needs.

We consult with parents, pupils and staff in the following ways:

- Questionnaires and surveys
- Meetings
- Training sessions
- Newsletters and letters

Any parent, teacher or pupil wishing to provide feedback about the curriculum can do so at any time during the academic year by:

- Organising a meeting with the headteacher
- Emailing school
- Submitting written feedback

### **Consultation with parents**

The school understands the important role parents play in enhancing their children’s understanding of relationships, sex and health. Similarly, we also understand how important parents’ views are in shaping the curriculum. The school works closely with parents by establishing open communication – all parents are consulted in the development and delivery of the curriculum, as outlined in this policy.

The PSHE programme of study will cover the following topics:

### **Relationships education overview**

#### **Families and people who care for me**

By the end of primary school, pupils will know:

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
- That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

### **Caring friendships**

By the end of primary school, pupils will know:

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

### **Respectful relationships**

By the end of primary school, pupils will know:

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- The importance of self-respect and how this links to their own happiness.
- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.

- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.

### **Online relationships**

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

### **Being safe**

By the end of primary school, pupils will know:

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.
- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter, including online, who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to ask for advice or help for themselves and others, and to keep trying until they are heard.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

### **Health education overview**

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing.

#### **Mental wellbeing**

By the end of primary school pupils will know:

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.

- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling and how they are behaving are appropriate and proportionate.
- The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
- How isolation and loneliness can affect children, and that it is very important they seek support and discuss their feelings with an adult.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.
- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

### **Internet safety and harms**

By the end of primary school, pupils will know:

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why some social media, some computer games and online gaming are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information, inclusive of that from search engines, is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

### **Physical health and fitness**

By the end of primary school, pupils will know:

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- The risks associated with an inactive lifestyle, including obesity.

- How and when to seek support, including which adults to speak to in school, if they are worried about their health.

### **Healthy eating**

By the end of primary school, pupils will know:

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.
- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on health.

### **Drugs, alcohol and tobacco**

By the end of primary school, pupils will know the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

### **Health and prevention**

By the end of primary school, pupils will know:

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.
- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs, including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
- The facts and science relating to immunisation and vaccination.

### **Basic first aid**

By the end of primary school, pupils will know:

- How to make a clear and efficient call to emergency services if necessary.
- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

### **Changing adolescent body**

By the end of primary school, pupils will know:

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle.

### **Economic wellbeing and being a responsible citizen (non-statutory)**

Pupils will be taught the following:

- How to contribute to the life of the classroom, and how to help create and follow group and class rules

- That everyone has individual needs and the responsibilities to meet them (such as being able to take turns, share, and understand the need to return things that have been borrowed)
- That they belong to various groups and communities such as family and school
- What improves and harms their local, natural and built environments and about some of the ways people look after them
- The different purposes for using money, including concepts of spending and saving, managing money, being a critical consumer and how money comes from different sources
- The role money plays in their lives including how to manage money, keep it safe, make informed choices about spending money and what influences those choices
- How to research, discuss and debate topical issues, problems and events relating to health and wellbeing and offer their recommendations to appropriate people
- Why and how rules and laws that protect themselves and others are made and enforced, why different rules are needed in different situations and how to take part in making and changing rules
- To understand that human rights apply to everyone, and that children have their own special rights set out in the United Nations Declaration of the Rights of the Child
- That universal rights are there to protect everyone and have primacy both over national law and family and community practices
- To know that there are some cultural practices which are against British law and universal human rights, such as Female Genital Mutilation (FGM)
- To realise the consequences of anti-social and aggressive behaviours such as bullying and discrimination of individuals and communities
- That there are different kinds of responsibilities, rights and duties differ at home, school, in the community and towards the environment
- To resolve differences by considering alternatives, seeing and respecting others' points of view, making decisions and explaining choices
- Recognising what being part of a community means, and about the varied institutions that support communities locally and nationally
- To recognise the role of voluntary, community and pressure groups, especially in relation to health and wellbeing
- To appreciate the range of national, regional, religious and ethnic identities in the UK
- To consider the lives of people living in other places, and people with different values and customs
- An initial understanding of the concepts of 'interest', 'loan', 'debt', and 'tax' (e.g. their contribution to society through the payment of VAT)
- That resources can be allocated in different ways and that these economic choices affect individuals, communities and the sustainability of the environment
- About enterprise and the skills that make someone 'enterprising'
- To explore and critique how the media present information

## **Sex education**

All pupils must be taught the aspects of sex education outlined in the primary science curriculum – this includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

The school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum. At our school, we do teach pupils sex education beyond what is required of the science curriculum using external professionals (school nurse). This takes place in Year 5 and Year 6.

Parents are fully consulted in the organisation and delivery of our sex education curriculum, as outlined in this policy.

The age and development of pupils is always considered when delivering sex education.

### **Delivery of the curriculum**

The relationships, sex and health curriculum will be delivered as part of our PSHE curriculum.

Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

The curriculum is delivered proactively, such that it addresses issues in a timely way in line with current evidence on children's physical, emotional and sexual development. The school will ensure that all teaching and materials are appropriate for the ages of the pupils, their religious backgrounds, their developmental stages and any additional needs, such as SEND. Lesson plans will provide appropriate challenge for pupils and be differentiated for pupils' needs.

Teaching of the curriculum reflects requirements set out in law, particularly the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

Pupils will be taught the facts and the law about sex, sexuality, sexual health and gender identity in an age-appropriate, inclusive and respectful way. We will endeavour to support all pupils to feel that the content is relevant to them and their developing sexuality.

At the point we consider it appropriate to teach pupils about sexual relationships, we will ensure that LGBTQ+ content is fully integrated into the relationships, sex and health curriculum, rather than delivered as a standalone unit or lesson.

Classes may be taught in smaller groups, dependent upon the nature of the topic being delivered at the time, and the cultural background of pupils where it is appropriate to deal with these issues with heightened sensitivity.

Teachers will establish what is appropriate for one-to-one and whole-class settings, and alter their teaching of the programme accordingly. Teachers will ensure that lesson plans are centred around reducing stigma, particularly in relation to mental wellbeing, and encouraging openness through discussion activities and group work. Teachers will ensure lesson plans focus on challenging perceived views of pupils based on protected characteristics, through exploration of, and developing mutual respect for, those different to themselves.

Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and in a manner appropriate to the pupil's age.

In teaching the curriculum, teachers will be aware that pupils may raise topics such as self-harm and suicide. When talking about these topics in lessons, teachers will be aware of the risks of encouraging these behaviours and will avoid any resources or material that appear as instructive rather than preventative.

Teachers will ensure pupils are aware of the expectation of them to participate sensitively and respectfully in class discussions of sensitive issues.

Teachers will stop full class discussions where pupils begin to reveal personal, private information related to sensitive issues. If teachers feel concerned about anything shared by a pupil, they will follow the appropriate response as laid out in the Child Protection and Safeguarding Policy.

The programme will be designed to incorporate all pupils, and activities will be planned to ensure all are actively involved.

Teachers will focus heavily on the importance of healthy relationships, though sensitivity will always be given as to not stigmatise pupils based on their home circumstances.

The school will undertake informal assessments to determine pupil progress – these could include the following:

- Group presentations
- Group tasks
- Projects

### **Equality and accessibility**

The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against any pupil because of their protected characteristics. These include:

- Age
- Sex or sexual orientation
- Race
- Disability
- Religion or belief
- Gender reassignment
- Pregnancy or maternity
- Marriage or civil partnership

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school understands that pupils with SEND or other needs, such as those with social, emotional or mental health needs, are entitled to learn about relationships, sex and health education, and the programme will be designed to be inclusive of all pupils.

Teachers will understand that they may need to be more explicit and adapt their planning of work and teaching methods in order to appropriately deliver the programme to pupils with SEND or other needs.

Provisions under the Equality Act 2010 allow our school to take positive action, where it can be evidenced to be proportionate, to respond to particular disadvantages affecting a group because of a protected characteristic. For example, we could consider taking positive action to support girls if there was evidence that they were being disproportionately subjected to sexual violence or sexual harassment.

When deciding whether support is necessary to support pupils with a particular protected characteristic, we will consider our pupils' needs, including the gender and age range of our pupils.

In order to foster healthy and respectful peer-to-peer communication and behaviour between all pupils, the school implements a robust Respectful Relationships Policy, as well as a Child Protection and Safeguarding Policy, which set out expectations of pupils.

The school understands that relationships, sex, and health education may include topics which are triggers for teaching staff, and could relate to historic, recent, or current trauma. If this is the case, the school encourages staff to approach their line manager or the school's designated wellbeing lead to discuss this.

### **Curriculum links**

The school seeks opportunities to draw links between relationships, sex and health education and other curriculum subjects wherever possible to enhance pupils' learning. Relationships, sex and health education will be linked to the following subjects in particular:

- **Science** – pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- **Computing and ICT** – pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- **PE** – pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- **Citizenship** – pupils learn about the requirements of the law, their responsibilities and the possible consequences of their actions.
- **PSHE** – pupils learn about respect and difference, values and characteristics of individuals.

### **Withdrawing from the subjects**

Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects.

As sex education is not statutory at primary level, other than what must be taught as part of the science curriculum, parents have the right to request to withdraw their child from all or part of the sex education curriculum.

The headteacher will automatically grant a parent's request to withdraw their child from sex education, other than the content that must be taught as part of the science curriculum; however, the headteacher will discuss the request with the parent and, if appropriate, their child, to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The headteacher will discuss with the parent, the benefits of receiving this important education and any adverse effects that withdrawal may have on the pupil – this could include, for example, social and emotional effects of being excluded.

The headteacher will keep a record of the discussion between themselves, the pupil and the parent. The parent will be informed in writing of the headteacher's decision. Where a pupil is withdrawn from sex education, the headteacher will ensure that the pupil receives appropriate alternative education.

### **Confidentiality**

Confidentiality within the classroom is an important component of relationships, sex and health education, and teachers are expected to respect the confidentiality of their pupils as far as is possible. Teachers will, however, alert the headteacher about any suspicions of inappropriate behaviour or potential abuse as per the school's Child Protection and Safeguarding Policy.

Pupils will be fully informed of the school's responsibilities in terms of confidentiality and will be aware of what action may be taken if they choose to report a concern or make a disclosure. Any reports made during lessons, or as a result of the content taught through the curriculum, will be reported to the DSL and handled in accordance with the Child Protection and Safeguarding Policy.

### **Monitoring quality**

The relationships, sex and health education subject lead is responsible for monitoring the quality of teaching and learning for the subjects. Monitoring will include a mixture of the following:

- Self-evaluations
- Lesson observations
- Learning walks
- Work scrutiny
- Planning scrutiny

### **Monitoring and review**

The governing body is responsible for approving this policy. This policy will be reviewed every 2 years basis by the relationships, sex and health education subject lead and headteacher. The next scheduled review date for this policy is May 2023. This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.
